Times are an approximation only and are calculated on the basis of an average speed of 7.5km/h and an average time of 12 minutes to pass through a lock. Your speed, the flow of the water and the time it takes to go through locks will all affect your progress.

*Please note that there are set times to ascend and descend the Fonseranes Locks, so you'll also need to factor in waiting time too.

- 8** Maximum speed allowed on waterways in km/h
- 3** Maximum speed allowed in ports/marinas in km/h
- ↑↓** Pass oncoming boats on the right-hand side
